---------	------------	---

We are asked to decide whether penalties should apply to a telecommunications carrier that began trenching and installing a fiber optic project in 1998 before it received the formal approval of this Commission under the California Environmental Quality Act (CEQA), Pub. Resources Code §§ 21000-21176. The utility in July 1999 was ordered by this Commission to stop work until it obtained formal CEQA approval six months later. Because the Commission in 1998 had no procedure in place for conducting a CEQA review for the type of utility involved, and because the utility was led to believe by Commission staff that an administrative CEQA approval was forthcoming, and because the utility itself retained environmental experts to monitor and direct its work, we conclude that, on the facts and circumstances of this case, no further sanctions are warranted. This proceeding is closed.

	I95-04-044	Order Instituting Investigation on the Commission's Own Motion Into Competition for Local Exchange Service

Summary: On June 5, 2001, Earl Nicholas Selby, counsel to Focal Communications Corporation of California (Focal), Yipes Transmission, Inc. (Yipes), and eVoice Telecom, Inc., met with Tom Bateman, Executive Director of the California Communities Dispute Service, acting as an assistant to Cmmr. Brown in this proceeding, in San Francisco. Also present were Bruce Holdridge, Vice President – Government Affairs, of Yipes, and Shan Misthos, General Manager – Bay Area, of Focal. Written material (attached to the notice) was used. Selby, Holdridge and Misthos urged the Commission not to overlook the pattern of discrimination in interconnection matters involving Pacific Bell and mentioned specific instances of discrimination. Selby stated that to focus exclusively on the operational details supposedly “completed” therein was to miss the forest for the trees. The parties urged the Commission to keep these matters in mind because they demonstrate what is likely to occur if Pacific Bell is ever granted “271” authority, namely, discrimination will increase and obstacles put in front of competitive local exchange carriers will greatly multiply as a means of imposing cost and delay on competitors to choke off all competition.

06/12/01 A00-04-031 Southern California Gas Company, for authority to sell its storage field in Montebello

Summary: LATE FILED. On June 6, 2001, Thomas Thompson, supervisor of the Office of Ratepayer Advocates (ORA), met with Trina Horner, advisor to Cmmr. Lynch, in San Francisco. Also present were Mark Pocta, supervisor, and Jason Zeller, counsel, for ORA, Marcel Hawiger, counsel for The Utility Reform Network, Judy Peck, Sempra Energy’s Administrator of State Regulatory Relations, and Steve Watson, Capacity Planning Manager for Southern California Gas Company. All of the participants discussed why the settlement agreement was still appropriate despite changes in the gas storage situation in the Los Angeles’ basin. Watson noted that the storage situation has improved considerably since the settlement agreement was first negotiated. Watson noted that because of recent drops in the price of gas, the agreement would be most beneficial if it is approved quickly. Concerning the issue of whether any of the gas in the Montebello Field should be dedicated to electric generators, all parties agreed that it was not appropriate to dedicate the Montebello gas to this end use. Pocta commented that the Montebello Gas should be viewed as an “in-basin” source of supply for Southern California gas users that should have the effect of possibly lowering overall gas prices in Southern California.

A00-11-012	San Diego Gas & Electric Company, for authority to continue low income assistance programs and funding through 2001
A00-11-020	Southern California Edison Company, compliance application for approval of Year 2001 Low Income Program Plans

Summary: On June 7, 2001, Sabrina Chaw, Senior Regulatory Representative, Pacific Gas and Electric Company (PG&E), met with Linda Serizawa, advisor to Cmmr. Wood, in San Francisco. Also present were Steve McCarty, Director of Customer Energy Management, and Kirsten Stacey, Manager of Low Income Programs, PG&E. Chaw stated that PG&E has concerns with the draft decision's ratemaking treatment for California Alternative Rates for Energy (CARE) incremental administrative costs. Chaw explained that despite the consensus reached with other parties to include the CARE administrative costs in the CARE balancing account, the ALJ's decision does not allow the balancing account treatment of incremental administrative costs. McCarty stated that PG&E is merely asking for the same treatment as other utilities received. McCarty indicated that PG&E expects its CARE costs to be three times higher than in previous years, and that PG&E should be given a chance to recover these costs. McCarty pointed out that allowing PG&E to track the costs in the balancing account would not preclude the Commission from reasonableness review of the costs. Stacey stated that if PG&E were allowed balancing account treatment, PG&E would be in a better position to meet the Commission's goals of higher penetration rates with the CARE program.
